Road Safety Week

Children learnt about the dangers of traffic including speed, crossing the road and dangerous conditions. They also explored what we can do to improve our local roads.

Road Safety poster Competition

Safety Protectors will be judging the Road Safety posters with parent governor Ciaron Wilkinson after the closing date – Friday 1st Dec.

We want to hear from you...

As part of Road Safety Week, we are asking parents and carers to complete a short travel survey. The survey will help us improve the health and wellbeing of our students by better understanding the barriers to leaving the car at home. It will also give us the foundation to apply for funding in the future. The survey should take no more than 5 minutes to complete.

https://docs.google.com/forms/d/e/1FAIpQLSdJZuawAYDFZNhE-8_KMMB-nYtLOcCh0prP2BRSM3J_-RRf_Q/viewform

The results of this survey will help us improve the health and wellbeing of students by addressing barriers to active travel. What is active travel? Active travel simply means making journeys in physically active ways - like walking, wheeling, cycling, or scootering.

It will also give us the foundation to apply for a variety of funding available to support this mission. You can read more about the benefits of leaving the car at home as well as tips on how to make the jump here:

Anti-Bullying Workshop

Our UNICEF Councillors and Safety Protectors enjoyed a trip to Manchester Library. We got on the tram to town and took part in an anti-bullying workshop where we created a campaign to prevent bullying in school, designed our own badges and we wrote our own acrostic poems. We had time to visit the children's library before coming back to school.

We will share our learning in our roles back at school.

Book Fair competition

Thank you for all the entries for our Book Fair competition, it was so tricky to choose just 5 winners. After much deliberation the following winners were chosen:

Bjorn from Bee Class

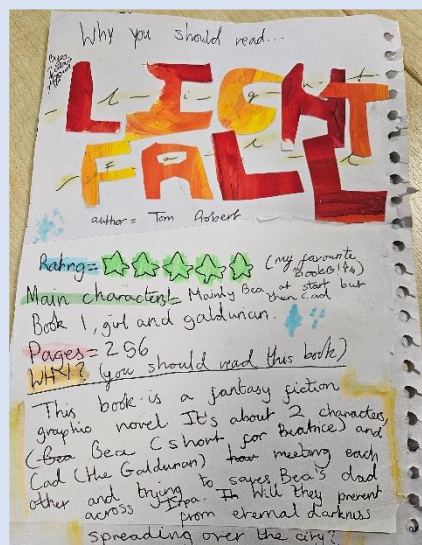

Eli from 1CK

Isabel from 3MT

Jeena from 6GD

Zaviyar from 6GD

They will each be awarded a £5 book token to spend at our Book Fair next week. Congratulations to you all.

KEEPING SAFE & BEING HAPPY

The Internet is full of harmful content, which is why web filtering is such an important tool for any family. When running properly it helps to protect your children from the bad things on the Internet, regardless of whether they're trying to access that type of content on purpose or it happens by accident.

While parental controls are generally lumped together as one, there are three main ways of providing them: via your Internet Service Provider (ISP), via a router or via software that you install. Each has its own benefits and downsides, and the best solution is often to use a combination of techniques to catch everything and prevent a child from bypassing your protection. In this brochure, we'll look at each type to see which ones are best for you.

A parent's guide to **INTERNET CONTROLS**

PARENTAL SOFTWARE CONTROLS

Traditional parental control software is typically available as part of an anti-virus suite, although dedicated applications are also available. The software has to be installed on a child's devices, with most supporting Windows, Mac, iPhone (iOS) and Android. Control is typically via the web, letting you set the types of websites that a child can visit, and how long they're allowed to use devices for.

Parental control software has two main advantages over the other methods. First, it can be used to monitor and restrict which apps are being used, in addition to filtering websites. Secondly, the software continues to work no matter where the child is, so they can't bypass protection by connecting to a different wireless network, for example.

The downside is that the level of support is more restrictive and some devices, such as games consoles, won't be supported.
